<p>Did you notice any similarities between the needs/issues your class came up with and the needs/issues identified in any of the 3 nomination videos you watched?</p>	
<p>What kinds of "cultural works" were nominated in the videos you watched? (Were they novels? Poems? Plays? Songs? Music videos? Paintings?) Were any of these findings surprising to you?</p>	
<p>What persuasive techniques did the speakers use in the videos that you watched?</p>	
<p>How was technology used to enhance the effectiveness of these videos?</p>	
<p>Overall, how effective were these videos? Would you consider any of the cultural works they present to be of value or of use to the Maine community? Why or why not?</p>
